## Welcome to Home Office eSourcing Portal

This eSourcing portal provides a suite of collaborative, web-based tools that enable procurement professionals and their suppliers to conduct the strategic activities of the procurement lifecycle over the internet. It provides an efficient, simple, security accredited, EU compliant means for managing tendering activities, reducing the time and effort required for both buyers and suppliers.

# Criteria - Acquisitive Crime

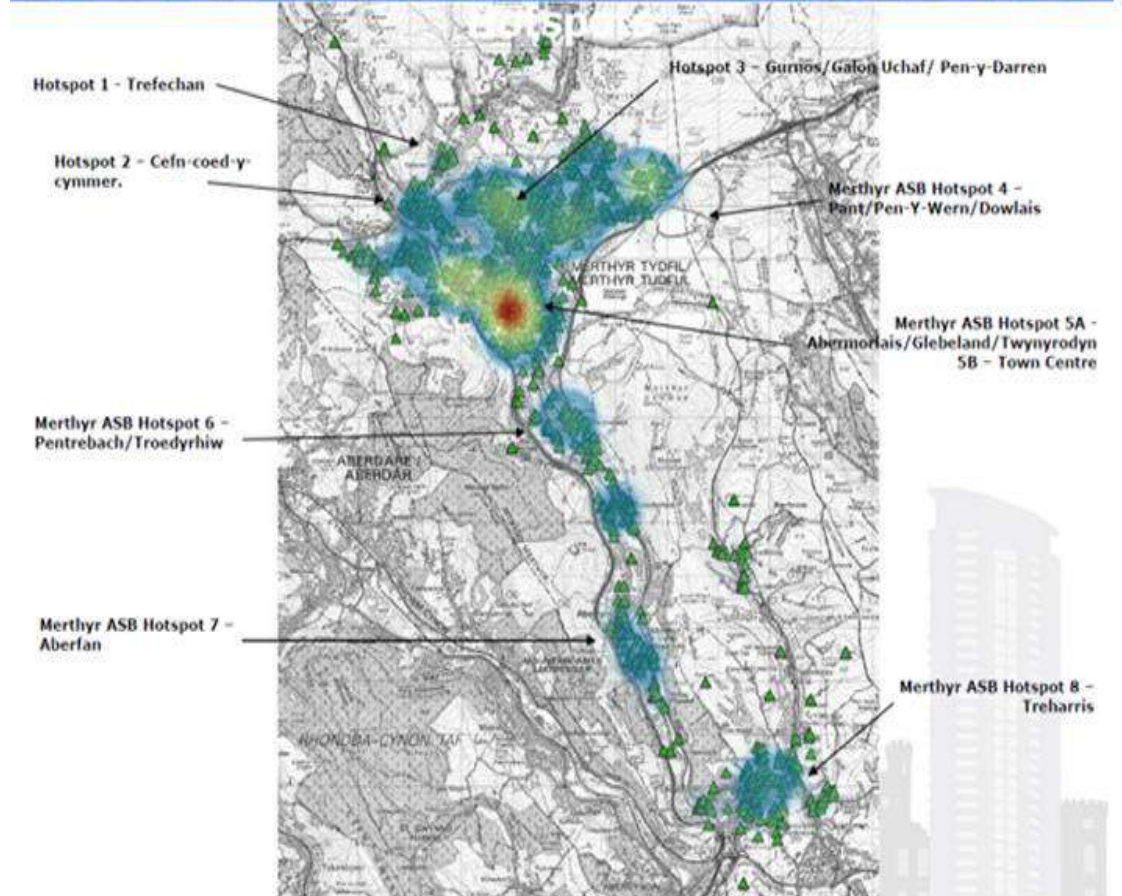

Over the last year Merthyr has seen a total of 1,752 recorded acquisitive crimes. The Town ward has the highest within this time period, accounting for 462 (58.62% crime per 1000 population). This area is defined geographically (Police.uk 004D – as per map).

The lower super output area of W01001315, W01001316 and W01001318 are within the boundary of the Town and show a high concentration of acquisitive crimes committed last year – dwelling and commercial burglaries including garages and sheds along with thefts from vehicles.

#### TITLE

[Company/organisation] has x car parks with xxx spaces and caters for xxx

[Details about the organisation and specifics about the car parks. If new award, details on things tackled to get up to standard – if re-awarded crime incidents and any customer feedback]

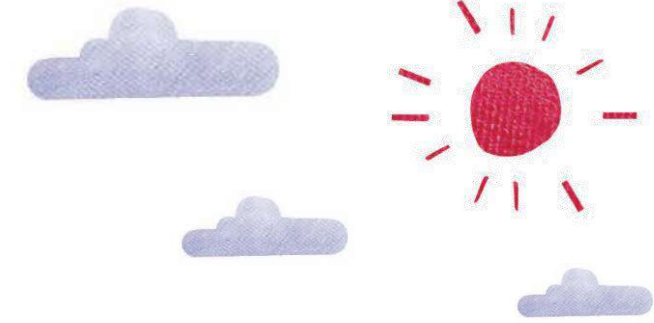

The Safer Parking Scheme is an initiative of Police Crime Prevention Initiatives and is aimed at reducing crime and the fear of crime in parking facilities. A Park Mark is awarded to parking facilities that pass a rigorous risk assessment conducted by the police and the British Parking Association. The assessments include management and maintenance of the facility, ensuring that there are appropriate levels of surveillance, lighting, signage and cleanliness. These criteria are known to reduce the opportunity for crime and create a safer environment for the motorist and their vehicle.
